Report On 1954

Old man 1954 left the town of Raymond in a much better condition than he found it with regard to new businesses and improved facilities, all of which makes it more attractive to shop at home. During the past two years practically every store has undergone improvements - from installing modern and expensive new equipment to a general face lifting.

One of the first changes to take place was the transfer of ownership of the Pharmacy from P. W. Cope to Don Steed and Stokes of Lethbridge, which was effected on January 10th. Don received his pharmaceutical degree at the University of Alberta in 1947 and since that time worked in Cardston, Waterton and Lethbridge.

Immediately the new owners took possession a more spacious feeling was introduced by rearranging the counters, cutting the back partition in half and a debt use of paint. Before the year was over they completed their remodeling by modernizing the show windows, adding a simulated marble front and rewiring the premises making it possible to further brighten main street with the attractive neon sign.

In March Henry Piegras took his familiar place behind the meat counter in the Cold Storage building, having bought this business with 652 lockers from Fairbanks Bros. the previous year.

The old Knight Office was bought by Alma Hancock in May at which time he moved his offices from his home where he had handled it previously. The building was renovated inside - the floor sanded and the walls painted in green and an unusual shade of maroon - and partitions added to provide an office for his son Cal who is handling the Quonset Hut sales, as well as another room.

Raymond can well be proud of their fine volunteer Fire Department who under their Chief Bill Hague keep up to date on new fire fighting methods and procedures. Drills are held twice a month. An annual drill is held at both Hospitals and Schools as well as an inspection of all business places as a result of all these factors and the resulting low fire damage, Raymond enjoys one of the lowest fire rates in the Province - and for this it costs only 23¢ per person.

During the past year there was only \$575.00 in fire damage from the 20 calls answered, excluding the three out of town. Before the Fire Department can answer a call more than a mile out, permission has to be granted by the Town Council, although the Chief can authorize up to one mile.

The most recent new business organized in town is that of 'Gordagas' with Gordon Rasmussen and Thurston Smith as partners in this new venture. Although Gordon has been a Sturdie Propane dealer for some time, it was only the last couple of months that he has been an independent dealer, getting their supply of propane from Central Alberta in their own truck. However, at this time two more trucks have been added and by the first of February a 30,000 gallon tank, which weighs 40,000tons, Bulk Station will be situated by the CPR Tracks which will be the shipping centre for a large area in the South. The gas will be distributed by transport and rail to the various dealers who will receive their stock of appliances from Lethbridge where a Wholesale House is being established. Their offices here will be in the building being renovated just east of Fritz Farm Supply.

The Broadway redecorated the space at the back of their store, and stocked it with a large variety of glass and kitchenware - numerous smaller luxury items for the home, and toys for the young fry. This new department, is called the Gift Shop.

The redecorating on the outside which was started the previous year received the finishing touch, when a new neon sign was erected on the store front.

A move out of town was made when in early fall an interest in the Transport business was purchased by the Melchin brothers' uncle Eldon Willis and the office moved to Lethbridge, with the local staff remaining with the company. The Auto Transport office was moved upstairs while Melchin Motors occupied the lower offices.

We're leaving 1954 in the dust, picking up 1955, a new year, with new ideas of improvement for us and our country; in a similar manner, let us, who are now tired and weary after a year's busy shopping, waken to a new year with bright new ideas for improvement, the main one to patronize Home Merchants.

F. U. A Head Office reports that steady progress is being made in dealing with the flood of memberships which came in as the result of Round Up Day. Memberships so far recorded are in excess of 45,000, and there are still a considerable number of returns on hand which it has not been possible to deal with as yet.

In the circumstances it is impossible to get out all membership cards for some time yet. Also, many new subscribers to the F. U. A paper cannot be put on the mailing list for this month's issue. The F. U. A is asking all persons concerned to be patient until the situation can be cleaned up.

REPORT ON 1954

(continued from page one)

Also in the fall, the Raymond Recorder moved onto the street and into a relatively new building - the former Larsen Electric - giving a lighter and cleaner place in which to carry on their business.

Just completed at the first of the year was the several thousand dollar addition to Canadian Sugar Factory office to the Canadian Sugar Factory Office Building here which gave them approximately one and a half times as much space as previously. The construction was completed in October but the interior painting, which is in restful green, went on for a couple of months longer.

This brick structure is an extension of the former office building, the north wall having been knocked out and the new addition went on from there. A full basement for the storage of supplies and equipment is included in the increased size, while new lighting fixtures were installed throughout and more cupboards were required.

The lunch room is now located in the office building, as are the foremen's offices which were formerly in the mill, and a room for the Assistant General Manager was added to the spacious executive offices. More space was given to the Agricultural Department as were the Engineering and the Laboratory Departments which all received a new and brighter look.

With the modern new foyer constructed in 1953 and the new wide-screen installed last year, the local theatre is keeping pace with the larger city ones. Several months ago the 15 ft. 8 in. by 28 ft. screen was erected and for some time now the residents here have been treated to what is called "Widescreen" films, over the week end White Christmas was shown in Vista-Vision and later on Seven Brides for Seven Brothers will be shown in Cinemascope - this screen being adaptable to all three types. The difference between the three may or may not be noticed by the average theatregoer - the difference being the degrees of illusion of depth achieved.

Along with the new screen the most modern Lamp Housings, Strong Mogul 70 amp. lamps and the latest in generators were installed to give the increased power and light required. The finest lense available replaced the old ones to complete the changeover. The entire change in equipment cost around \$7,000 to \$8,000.

High Flying Green Acres Post Easy Victory Over Jacks

In one of the Jacks most off days this season Acres took advantage of it to drop them by a one sided score of 78 to 63. Acres, who had been in a slump recently, snapped out of it with a surprising upset over Raymond. A packed house saw the Acres move into an early lead and never look back until the final bell. In the first ten minutes of play the score board read a convincing 21 to 9 in favor of Lethbridge and by half time had increased this lead to 42 to 32. Jacks came nearest to their objective when they moved within 6 points of Green Acres lead midway in the third quarter but from that point on the Acres never slacked pace.

For the winners starry Jack Lilja stood out with a sparkling 22 point effort team mates Stevens and Greenway each tumbled in 15. Newton dropped in 14 and Harris 12. For Union Jacks lanky Al West once again took scoring honors with 25 points, while Larry West and Ray Stevenson tallied for 11 and 12 respectively.

The win put Lethbridge in undisputed possession of top place in league standing with a four point lead over Magrath and Raymond who are currently tied for second spot.

Line up
Raymond — A. West 25, L. West 12, Stevens 11, Nalder 6, Shaw 7, Dahl 2, Ralph, Snow, Fairbanks. Total — 63

Jacks Register Easy Victory Over Maple Leafs.

A hand full of faithful Raymond fans watched the home team post an easy victory over the Cardston Maple Leafs by a score of 94 to 52 in what was the easiest wins for Raymond this season. The locals started the game very slowly but speeded up as minutes went on and by half time had racked up a score of 47 to 34 in favor of the Jacks. Cardston was poor on the defensive play and seemed to tire quickly on the large floor.

Big Al West paved the way to local win with a sizzling 32 point effort and Larry contributed 18 to the cause. Stevens, Shaw and Fairbanks, con-

tributed for 12, 8, and 8 points. For the Leafs Sloan counted for 16 while team mates Stan Sheen and Beazer each tumbled in 8.

In the preliminary tussle the local Idlers upset Dick Sabey and his band of Meteors from Milk River by a score of 60 to 52. For the Idlers speedy little Monty Dahl tallied for 20 points and Jack Dahl canned 14. For the losers Dick Sabey was tops with a neat 14 point showing while R. Thielen, H. Thielen, and B. Dittman dented the twine for 12, 11, 10, respectively.

Line up
Raymond — A. West 32, L. West 18, Stevens 12, Shaw 8, Fairbanks 8, Dahl 3, Snow 5, Nalder 2, Ralph 6. Total — 94.

Comets Tounce New Dayton

The hard working Comets added another win to their winning streak by downing the Ramblers of New Dayton 94 to 74. Raymond started the game off at a killing pace although they slowed down considerably by three quarter time.

For the winners Jack Hicken was top point getter with a sparkling 27 point effort. Jess Gibb was next in line with 24 points, while Fred Henderson tallied for 18.

For New Dayton, Hal Cronkhite and Jerry Gorrill did most of the work as they each tumbled in 30 which was by far the largest percentage of the points for the Ramblers.

Line up

Raymond- Hicken 27, Gibb 24, Hirsche 6, Attwood 10, Minlon 7, Stone 2, Henderson 18, Vance, Total 94.

**Alberta's
Treasury
Department**

The Treasury Department is concerned with any governmental activity that involves the receipt, custody of payment of money. The department was established by an Act of the Legislative Assembly called "The Treasury Department Act" and is headed by the Provincial Treasurer.

The Treasury Department Act prescribes the main function of the department which is the management and control of revenue and expenditures of the province. Each year the Provincial Treasurer prepares a budget containing estimates of the amounts required to pay the various expenses and costs of government services, as well as the estimates of revenues accruing from various sources.

The Budget Speech, delivered by the Provincial Treasurer to the Legislative Assembly, is a general statement explaining the financial condition of the province and the fiscal program of the Government. The estimates are the amounts of revenues and expenditures expected by each department, and when passed by the legislature, they control the coming year's expenditures.

The Provincial Auditor, an official appointed by the Lt. Gov. in Council under the Seal of the Province, keeps the accounts of the province. His responsibilities involve the checking of each item of revenue and the approval of each expenditure. He prepares the Public Accounts in which all the financial transactions of the province during the last fiscal year are set out.

As the Treasury Board, the Executive Council frames regulations respecting the book-keeping and accounting of the Government.

The Treasury Branches Act authorizes the Provincial Treasurer to establish and operate branches of the Treasury at points throughout the province. To date, 47 branches, 13 sub-branches and 84 agencies have been established.

The Alberta Government Purchasing Agency Act is administered under the supervision of the Provincial Treasurer and the Director of Purchases is responsible to him. The Purchasing Agency purchases all supplies required by government departments.

Also attached to the Treasury Department is the Office of the Queen's Printer. The Queen's Printer is responsible for the publication of "The Alberta Gazette", which contains Government proclamation and official notices. This office publishes the statutes of the province and all other Government publications, and supplies all printing, stationery and general office supplies required by the departments.

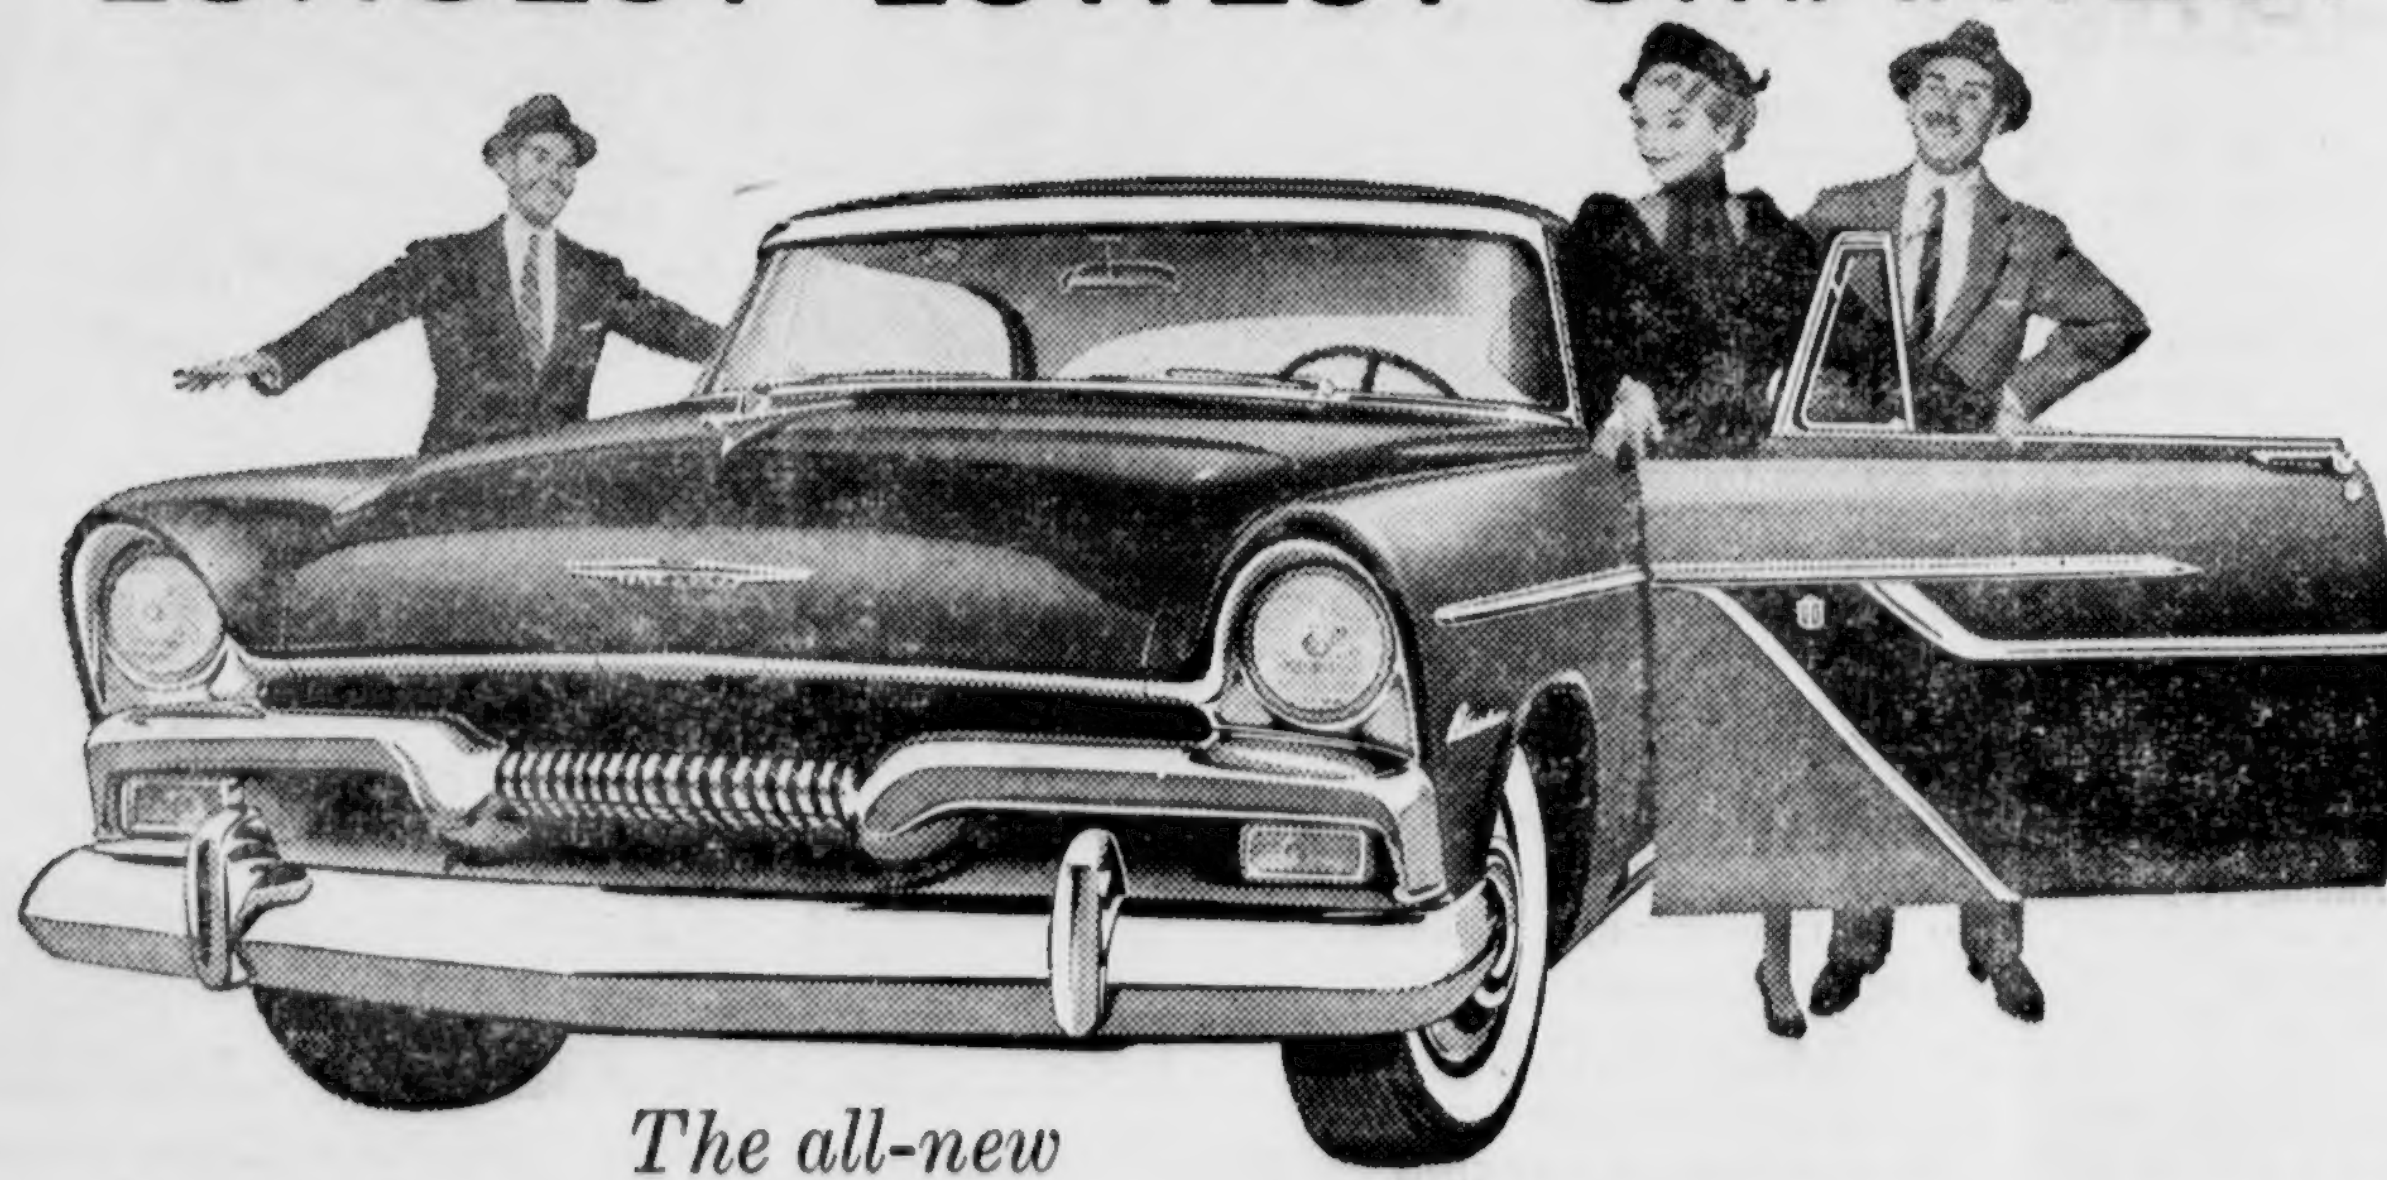

The Provincial Treasurer administers The Retirement Annuities Act through which Alberta citizens may purchase annuities with a small initial deposit.

For administration purposes, the Board of Public Utility Commissioners is attached to the Treasury Department. Among its many responsibilities the Board regulates the rates charged by utility companies, protects the people of Alberta from unwise investments, approves debentures and regulates the financial activities of local governments. In regard to milk control the Board computes the average cost of production, audits dairy plants and determines price charges for the consumer.
